Projects
Jacob’s Ladder

- Simple device in which an electron spark forms between two high voltage wires separated by air.
- Spark heats up the surrounding air and rises up the two wires to form something that resembles a ladder.
- Join #jacobsladder Slack channel to let us gauge interest.
Holiday Lights

- Project managers:
  - Primary manager: Leah Jankowski
  - Deputy manager: Samuel Price

- Email them or join the #holidaylights channel if you are interested in joining.
Scrum

Since our last meeting...

● What have you accomplished?
● What’s next for you to work on?
● Is there anything in your way and is there anyone who can help?
